## **STUDENT ELIGIBILITY RULE 52**

This form may be utilized to notify the MIAA of any student declared eligible, by the school principal, to represent a MIAA high school on an interscholastic athletic team as specified in MIAA Rule 52. Students in alternative, collaborative, detached or nontraditional schools (e.g. taking a college course(s), dual enrollment, school to work, work-study etc.) must meet all requirements specified in Rule 52, along with all other high school and MIAA athletic eligibility standards.

## 52. Student Eligibility: Alternative, Collaborative, Detached or Other Non-Traditional Educational Programs

Students who are not being educated on the high school campus that will issue their diplomas are not eligible to represent that, or any member high school, unless the criteria within this rule are satisfied. If the student is not eligible at the attending college or the alternative institution does not offer any athletic participation opportunity, a student may participate in the diploma-granting MIAA high school if that principal:

- has the authority to suspend the student from all academic programs; and
- receives daily reports of the student's attendance and achievement; and
- Certifies the student is eligible by all other MIAA and local standards that must be satisfied by the student's teammates.

(The above conditions must be agreed to in writing by the non member-school director prior to any practice or athletic participation by the student at the high school that is awarding the diploma.)

These non-traditional students may not participate if they do not meet all of the eligibility standards that are required of their teammates. Principals, athletic directors, and guidance personnel should counsel students regarding athletic eligibility prior to committing to nontraditional educational pursuits.

Revised 8/25/08
